Macron spoofed as Hitler

Summary

The French people regard Macron as a Hitler-like figure. This is the anger of the lower-class French people towards Macron, who only protects the interests of French Jewish capital while damaging the interests of the lower-class French people.

At present, Europe is cooperating with the United States to raise tariffs on Chinese electric vehicles. In addition to the push from European Commission President von der Leyen, who is the United States' agent deeply embedded in the European Union, the Jewish Macron is also the main driving force behind the scenes.

Jewish capital is good at using the tactics of fighting both who are on the political left and right, it uses both hands in breaking down, and in manipulating and controlling the European political arena. Since the European bourgeois revolution, it is the Jews who have used parliament to weaken the power of the kings of European countries. Including the Dutch, French, and British revolutions, the Jews used their financial advantages to bribe elected parliamentarians to weaken the power of the king and the Catholic Church. In the end, the Jews succeeded and obtained the right to issue currency in these countries and controlled these countries with capital.

The Jewish elite hides behind the European political elections, using the designed European election system, Jewish funding, and the European media controlled by Jews. In addition, it has just been revealed that the notorious Team Jorge – a mysterious Israeli Internet company known to manipulate elections turns around the results of various elections through Internet technology and secretly manipulates the results of political campaigns. As a result, all EU countries have been infiltrated and split by Jewish forces, and each one has been defeated, and is completely controlled by the United States, including Jews. **For example, EU**

Secretary-General von der Leyen is a person planted by the United States. The Green Party, one of the ruling parties in Germany (the German Foreign Minister is of the Green Party), is actually controlled by the United States. Among the 27 countries in the EU, 14 heads of state are Jewish. The current French President Macron is not only of Jewish descent, but he was also a department manager of the French Jewish capital Rothschild Bank. After serving there for a long time, all of a sudden, he became the President of France. The heads of state of 5 countries are half Jewish, and more than half of the 750-member European Parliament are Jewish, while Jews only account for 0.2% of the EU population. In this way, the entire European parliamentary election system was designed by Jewish financial capital, which used money to support the election of European politicians who were in line with the interests of Jewish financial capital, and gave priority to the introduction of policies that were in line with the interests of Jewish financial capital, so as to divide and rule European countries, fragment the politics of each country, create contradictions and chaos, and make it easier to control. As a result, Jewish financial capital controlled the political situation in Europe.

I have said many times before that Macron was brought to power by Jewish capital. China hopes that Macron will promote France's strategic autonomy and form an independent pole in Europe to divide the relationship between the United States and Europe. We need to be sober and not have illusions about him!

Von der Leyen is the agent of American Jewish capital in Europe and represents American interests. The last time the Chinese leader visited France to meet with Macron, Macron invited von der Leyen to join him in meeting with President Xi, which shows that Macron too is under the influence of the Jewish capital.

When Macron met with Chinese leader, he asked China to facilitate a ceasefire between Putin and the Russian-Ukrainian battlefield during the Olympic Games. China should have also asked Macron to promote a simultaneous ceasefire between

the United States and Israel in the war in Gaza. Macron, who is supported by Jewish capital (he used to be a bank manager of the Rothschild family and is also Jewish), should not achieve the goal of benefitting Biden's election in the United States and the interests of American Jewish capital.

Now, the United States has agreed with Macron and others to use the \$300 billion of Russian financial assets frozen in Europe as collateral to issue \$50 billion in public debt to support the war in Ukraine. The war in Ukraine has consumed \$480 billion. The Jewish capital BlackRock Group has taken over all Ukrainian state-owned assets. The United States is using Russia's money to fight the war between Russia and Ukraine. Jewish capital does not need to spend a penny, and by taking over Ukraine's rich mineral resources, it has made money from Ukraine.

If we take Taiwan in the future, and we do not take back China's financial assets and investment assets in the United States (estimated to be \$3 trillion) in advance, once a war breaks out in the Taiwan Strait, the United States can use China's money to fight China! I hope the national decision-makers understand this consequence!

Before entering politics, the Jew Macron was a very successful bank manager of the Rothschild Bank, representing the interests of French Jewish capital. French industrial giant Alstom, which is similar to China's Huawei, was eventually set up by the United States to capture its senior officials, similar to the capture of Meng Wanzhou (The daughter of the Huawei chief Ren Zhengfei). In the end, the French company Alstom was dismembered and annexed by the United States. At this critical juncture, the Jew Macron was promoted by the French Jewish capital Rothschild family to serve as a French politician (first as Minister of Finance) to cooperate with American Jewish capital to acquire the French industrial giant Alstom. Alstom has five firsts in the world: hydro-power equipment, conventional islands of nuclear power plants, environmental control systems, and ultra-high-speed trains and high-speed trains of the Ministry of Transport. The Rothschild family is the main shareholder of the (US) Federal Reserve.

The policies formulated by Macron during his presidency are mainly in line with the interests of Jewish capital such as the Rothschild family in France. The delayed retirement policy Macron introduced has infringed on the interests of the lower classes of the French people and

safeguarded the interests of French Jewish capital. Macron is a representative of the international Jewish bourgeoisie, and we must recognize his true colours.

Recently, Macron has made remarks aimed at driving a wedge between China and Russia. On 15 May, the Kremlin slammed French President Emmanuel Macron's remarks that were intended to drive a wedge between China and Russia. Macron had previously claimed that Russia was becoming a vassal of China due to the conflict in Ukraine. Kremlin spokesperson Dmitry Peskov told the outside world, "We strongly disagree with this statement. Our relationship with China has the characteristics of a special strategic partnership."

The French people regard Macron as a Hitler-like figure. This is the anger of the lower-class French people towards Macron, who only protects the interests of French Jewish capital while damaging the interests of the lower-class French people.
