

**Sanchi Vahal**  
Research intern  
Institute of Chinese Studies (ICS)  
Delhi  
E-mail: [s.vahal@gmail.com](mailto:s.vahal@gmail.com)

### **AREAS OF INTEREST**

International economics, Development economics.

### **CURRENT RESEARCH PROJECTS**

Comparative analysis of India and China on various Macro, Development and Sociological aspects.

1. Broad macro-economy: GDP, growth rates, growth rates of states
2. Sectors -- agriculture
3. Sectors -- manufacturing
4. Sectors -- Services
5. External sector -- trade (changes in commodities, trading partners, shares of each, regional blocks), balance of payments, exchange rates, capital account), FDI -- both within these countries and FDI by these countries to the rest of the world.
6. Relationship to the external economy -- global financial crisis, Eurozone crisis
7. Multilateral international institutions -- IMF, WB, WTO etc
8. Labour and employment
9. Poverty and inequality: include as many indicators and measures as possible. WB is good source for this.
10. Education and health
11. Infrastructure
12. Role of the state -- public finances, monetary and fiscal policies, transfers, subsidies
13. Social Groups -- religion, ethnicity, gender, region
